

# oro® Grease Remover

## Concentrate

## Product Information

### Area of application

Concentrate for manually or mechanically removing grease and other alkali-soluble stainings. It can be used for cleaning machines, appliances, grease traps, floors and surfaces in canteen kitchens or the food industry. Well-tried in industrial cleaning.

### Advantages of the product

- Concentrate – low application concentration, economical in use
- Very good material compatibility with alkali-resistant surfaces (stainless steel, plastics, e.g. polyethylene, polypropylene, etc., ceramics, glass ceramics, glazed tiles, etc.)
- For use in floor scrubbing machines
- Colorant-free, no odour nuisance – suitable for use in the food industry

### Application

The normal application concentration is 100 ml concentrate to 10 litres of cold water. The cleaning effect intensifies when warm water is used (40°C max.). We recommend adding approx. 500 ml of the product to 10 litres of water in case of stubborn stainings. The cleaned surfaces must be thoroughly rinsed with drinking water if they get in contact with foodstuffs. Wipe or spray surfaces.

### Notes

We recommend testing the material compatibility on a concealed surface if the product is used on alkali-sensitive surfaces.

### Chemical composition

oro® Grease Remover contains phosphates (5 - 15%), anionic surfactants (< 5%), complexing agents (< 5%), non-ionic surfactants (< 5%) and alkaline cleaning components in aqueous solution.

### Packing units

30-litre container  
10-litre container  
Carton of 6 1-litre bottles

### Accessories

Spray and foam nozzle for 1-litre bottle, 1-litre bottle with spray and foam nozzle, container tap for 30-litre and 10-litre containers, dosing head (20 ml) for 1-litre bottle, dosing aid for 30-litre and 10-litre containers.

### Shelf life

3 years

### Storage

Cool but not below 5°C.

### Physical properties

Concentrate:

Appearance: clear colourless liquid  
Density:  $D = 1.091 \pm 0.020 \text{ g/cm}^3$  (20°C)  
pH:  $12.8 \pm 0.5$

### Ecology

The surfactants contained in oro® Grease Remover meet the OECD requirements and are thus biodegradable. The packing is made of polyethylene and can therefore be exploited materially and thermally. For recycling, rinse bottle with water.

### Caution

oro® Grease Remover is classified as "irritant" in accordance with the Directives relating to the classification, packaging and labelling of dangerous substances and preparations. Risk of serious damage to eyes. Irritating to skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of water. If swallowed, seek medical advice immediately and show this container or label. Wear suitable gloves. Keep out of reach of children.
