

oro® Cleaner for Use in Healthcare

Concentrate

Product Information

Area of application

For cleaning disinfected surfaces and floors in the medical field, e.g. in hospitals, care homes, etc. Compatible with all disinfected surfaces.

The oro® Cleaner for Use in Healthcare is a universal intensive cleaner – suitable for regular and intensive cleaning of all water-resistant surfaces and floorings, e.g. doors, window frames, plastic surfaces, tiles, stone and plastic floorings. Suitable for cleaning sanitary facilities.

Advantages of the product

- Concentrate – low application concentration, economical in use
- Compatible with disinfected surfaces: no sticky residues or discolorations
- Excellent cleaning effect
- Lasting hygienic fragrance

Application

The oro® Cleaner for Use in Healthcare is diluted for use. We recommend adding 40 ml of the product to 8 litres of cold water. We recommend adding 80 ml of the product to 8 litres of cold water in case of stubborn soilings. Do not mix the oro® Cleaner for Use in Healthcare with ordinary household cleaners.

Notes

We recommend testing the material compatibility on a concealed surface in each individual case.

Chemical composition

The oro® Cleaner for Use in Healthcare contains non-ionic surfactants (5 – 15%), complexing agents (< 5%) and auxiliary agents in aqueous solution.

Packing units

30-litre container
10-litre container
Carton of 6 1-litre bottles
