

oro® Oven and Grill Cleaner

Ready to use

Product Information

Area of application

Extra strong, ready-to-use special cleaner for removing grime and grease and other burnt-on, alkali-soluble cooking deposits (e.g. protein-containing or caramelised deposits, soot, oil). oro® Oven and Grill Cleaner is suitable for use in ovens, convectomates, on kitchen hoods, cookers, sideboards, worktops, tiles, etc.

Advantages of the product

- Very good material compatibility with alkali-resistant surfaces (stainless steel, plastic, ceramics, glass ceramics, etc.)
- Easy to use - ready-to-use - therefore no danger of incorrect dilution

Application

Fill oro® Oven and Grill Cleaner into the spray bottle. Never dilute oro® Oven and Grill Cleaner and spray on the surfaces of ovens, grills, hoods, etc. and spread by means of a sponge or a brush, if necessary. Allow to work for 5 to max. 15 minutes. Rinse wetted surfaces thoroughly with clear water. An increased temperature of 40 to max. 50°C accelerates the cleaning process.

Notes

Do not spray alkali-sensitive surfaces made out of light metals or alloys (aluminum, brass, etc.) or varnished surfaces with oro® Oven and Grill Cleaner. Test on a concealed surface, if necessary.

Chemical composition

The oro® Oven and Grill Cleaner contains potassium hydroxide (< 5%), non-ionic surfactants (5 - 10%) and auxiliary agents in aqueous solution.

Packing units

10-litre container
Carton of 6 1-litre bottles

Accessories

550-ml spray bottle for use with oro® Oven and Grill Cleaner, container tap for 10-litre containers.

Shelf life

3 years

Storage

Cool but not below 5°C.

Physical properties

Appearance:	clear, slightly yellow liquid
Density:	D = 1.04 ± 0.02 g/cm ³ (20°C)
pH:	13.5 ± 0.5

Ecology

oro® Oven and Grill Cleaner is ecologically safe as all organic ingredients are biodegradable in the natural dilution of flush water. The packing is made of polyethylene and can therefore be exploited materially and thermally. For recycling, rinse bottle with water.

Caution

oro® Oven and Grill Cleaner is classified as "corrosive" in accordance with the Directives relating to the classification, packaging and labelling of dangerous substances and preparations. Causes burns. Do not breathe spray. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of water. If swallowed, seek medical advice immediately and show this container or label. Wear suitable gloves and eye protection. Keep out of reach of children.

The information on our products is based on detailed internal and external scientific examinations, and recommendations are given to the best of our knowledge. Liability is being judged in accordance with our General Terms of Sale and Delivery which are available upon request at any time.
