

oro® Basic Sanitary Cleaner

Concentrate

Product Information

Area of application

For powerful basic cleaning of tiles, bathtubs made of acid-resistant plastic and enamel, showers, shower cabins, washbasins and toilets.

Advantages of the product

- Extra strong: Removes hard water stains, lime, soap scum and urinary calculus
- For use in diluted or concentrate form
- Free from phosphoric acid and phosphates
- Is not classified according to the Directives relating to the classification, packaging and labelling of dangerous substances and preparations

Application

Add 100 ml of oro® Basic Sanitary Cleaner to 10 litres of cold water. We recommend adding approx. 200 ml of the product to 10 litres of water in case of stubborn soilings or use the concentrate. Wipe or spray surfaces. The cleaned surfaces must be thoroughly rinsed with drinking water.

Notes

Do not use on marble, limestone surfaces and other acid-sensitive materials. Soak tile joints with water, if necessary.

Chemical composition

oro® Basic Sanitary Cleaner contains citric acid (10 - 20%), amphoteric surfactants (< 1%) and auxiliary agents in aqueous solution.

Packing units

30-litre container
10-litre container
Carton of 6 1-litre bottles

Accessories

Spray/foam nozzle for 1-litre bottles, 1-litre bottle with spray/foam nozzle, container tap for 30-litre and 10-litre containers, dosing head (20 ml) for 1-litre bottle, dosing aid for 30-litre and 10-litre containers.

Shelf life

3 years

Storage

Cool but not below 5°C.

Physical properties

Appearance: clear, light red liquid
Density: $D = 1.066 \pm 0.020 \text{ g/cm}^3$ (20°C)
pH: 1.8 ± 0.5

Ecology

The surfactants contained in the oro® Basic Sanitary Cleaner meet the OECD requirements and are thus biodegradable. The citric acid contained is also biodegradable. The packing is made of polyethylene and can therefore be exploited materially and thermally. For recycling, rinse bottle with water.

Caution

The oro® Basic Sanitary Cleaner is not classified in accordance with the Directives relating to the classification, packaging and labelling of dangerous substances and preparations. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. If swallowed, seek medical advice immediately and show this container or label. Wear suitable gloves. Keep out of reach of children.
